## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 5/23/2005 has been entered.

### ***Allowable Subject Matter***

2. Claims 1-6, 8-25, 28, and 29 are allowed.

3. The following is an examiner's statement of reasons for allowance:

The present invention provides a new method, apparatus and computer product for encoding and decoding image data capable of maintaining the image quality and improving the compression rate at the same time (specification, page 3, lines 1-7). In particular, the new method, apparatus and computer product comprise the following features, which the prior art, either taken singly or in combination, does not teach:

- generating a virtual intermediate frame based on the matching; encoding an actual intermediate frame included in the image data based on the virtual intermediate frame (see independent claims 1, 5, 6, 28, and 29);

- generating a virtual intermediate frame based on computing a matching between the key frames thus separated; decoding an actual intermediate frame based on the virtual intermediate frame and the supplementary data (see independent claims 17, 21, and 22).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
